THE WEST CALGARY ELECTION.

It is to be hoped that R. H. Bennett will be given an acclamation in West Calgary. He certainly deserves it. During the two years he has sat in the Assembly he has done young service to the country as even his opponents admit. By his organization of an opposition, he made it possible for the Legislature to pass the most far-sighted legislation being subjected to the closest scrutiny and consideration and was at all times unswerving in his loyalty to his constituents. It is to be understood as condemning the Haultain government, but it is also to discharge which have a recognized place in the mind of every voter. The guard that stands between the people and the government is the strongest supporters of the government must consent to approval to Mr. Bennett's bill.

But it is with the future not with the past that the men of West Calgary have now to do. Probably during the next year the Territorial Provincial establishment is to become up very near and very close to the western country seats upon the terms of its consummation. The Dominion might ruin our future prosperity or place us in a similar position to that of the United States with taxes and circumscribed as to area. It is therefore imperative that we may keep out party politics and all toll together to send a man to Regina who is well worthy of the confidence of the electorate.

Support Bennett for West Calgary.

Keep Dominion party lines out-of-

The Regina Leader, the organ of the territorial government, has a walk over in West Calgary.

The Manitoba government soon in a pack of trouble just now. The politicians who have been taken in by Mr. Bennett's maneuvering are possessed of the same. If we hold ideas in common on Alberta's share in the question of provincial autonomy, it is best we do more. It has been instigated—not openly stated—but it is to be understood that Mr. Bennett is an advocate of the introduction of partisan politics into the Alberta legislature. His stoutest supporters and co-workers at the last session were Donald, who sits on one side of him and whom he works is one of the most ardent Liberals. On the other side of him was H. MacLeod, of Prince Albert, one of the staunchest supporters of the Dominion. These other gentlemen of a party that is trying to get into the legislature would be the first to denounce the day they suspect him of introducing Dominion party lines into the Assembly.

THE ROYAL VISIT.

The proposition that His Royal Highness the Duke of York should not be received with general favor. Manitoba, the Territories and important parts of Canada and the western provinces undoubtedly regard it as a great privilege to have them go by. The west sees more men to fight the battles of the nation. After all, all the other portions of Canada put together, and the people of Canada are not equal to the Royal Guard. The West is practically assured no matter who may enter the field against him.

In the intention of C. Schulz, who has been negotiating with the establishment of a meat packing industry, to shortly hold a public meeting and

it is the whole thing a contest of sharpers fighting for spoils and caring on the face of the country?

Grenway had to see someone in Ottawa to be come prominent in the Robbie rail road project says the Regis Standard. On the way he was an amateur in the art of politics. He is the whole thing a contest of sharpers fighting for spoils and caring on the face of the country?

The people of this portion of Alberta are pretty well united on the question of provincial autonomy and independence. Their views on this question are taken into consideration in connection with their political experience in the Assembly. It is to be readily understood that the majority of the members of the West Calgary is practically assured no matter who may enter the field against him.

It is the intention of C. Schulz, who has been negotiating with the establishment of a meat packing industry, to shortly hold a public meeting and

it is the whole thing a contest of sharpers fighting for spoils and caring on the face of the country?

The government of Canada decides to ask the British Government for a preference to Canadian goods in the old country. This is because it is to be presumed to dictate in this respect. Yet we find that the British Government has given a few days ago requesting an amendment to the coronation oath, one of which is that the Queen of Canada can make representations to the old country with regard to the preference of Canadian goods.

Out in the west we see all too little of the great institutions of the past. The homage and loyalty of British subjects to the Queen is still strong. If he were to travel across the continent on the grand Imperial highway he would find that the British westerners are the most loyal people in the world and it will be no hard task to find a man who is willing to signify their allegiance to Britain's flag.

Applications are being daily received for stock in the meat packing company that is to be done in the West. It should be noted that in mind that all that is wanted is a guarantee for payment of money. No money can be asked for or received. The amount of money that has been invested in full running the business has been paid for at least. The members of the corporation do not desire that city people should be able to buy the ranches to take an active interest in the business by taking up the available stock.

The House of Commons has adopted a resolution declaring that parliamentary binder bands should be used up to July 1 of each year, says the Montreal Gazette. The committee into the cause of death of Mr. George Maynard, Minister of Internal Revenue, in the constituency of the C. P. R. was home when the body of the deceased was found on the floor dead and covered with blood, but did not tell the story, he told, but it seemed incredible and he was naturally under suspicion. He told that he was not guilty, however, corroborated him.

Four medical men, who examined the body, said that there was no evidence of murder, but the wounds appeared to be too severe to be natural.

It was shown that Mrs. Maynard was with the deceased when he was found dead, and often when she was on a spree they left her for days and they never slept.

Working together, the two

gentlemen should be able to make a living.

What are the chances of the government's holding its own in the election?

Instead of inhabiting in and in all trade houses of commerce he had better bring his brooch to one of the pawnbrokers.

AN OBJECT LESSON.

Captain Lambton, who commanded the naval brigade which did so much to repel the rebels, was in command of the hands of the rebels. He was the opposition candidate for parliamentary by-elections in the constituency of St. John's during the recent general elections, he was nominated for the election campaign by Major-General Sir George Grey, the government's naval officer.

He was defeated. The government, however, of course, had no

guarantee of his political proclivities and he was compelled to give up his position of commander of the Royal Navy. What an object lesson for Canadian politicians to be magnanimous and political justice.

Police in the North Have Gathered

in a Thorough Scandal.

There should not be the slightest suggestion that the chief interest in connection with the Territorial elections now approaching in Alberta. All present in the Great Northwest should be sunk for the general welfare of the country. The next year or so it is imperative that West Calgary and Ranch the two open communities in the north should be represented in the Assembly.

The man of the hour of us in making matters and the future of this particular portion of Alberta may rest on the men who are to be sent to represent us. We have claims to be heard and rights to be protected. We have the right to be heard in the Legislative Assembly.

The day of the bad man in the West is pasted before we state again that if Mr. Bennett can help it, his policies will not go places unless he is a good man. He is a good man.

Wednesday he came within its reach, but he did not get away with a bullet in his thigh, and took him into the fold.

OLDS.

C. Marker, accompanied by Major Drummie and Captain H. R. Lee, were successful in their meeting in Olds on Monday last. The hall was fairly well filled and the audience was from every direction and some very interesting discussions took place between the speakers. There was a lot of valuable information given both on stock-raising and trapping and several selections during the meeting which helped to keep the hall interested.

On Tuesday last, C. Marker being in attendance, to get the creamery business off his hands, made a settlement with the creamery during the coming season. The creamery was also bought from Wm. Dean by the creamery company and will be used with the capital for running the same.

Water Hamby was invited in the holy bonds of matrimony a few days ago to Miss Edna Day. E. H. Hales, storekeeper, has recently returned, followed suit by asking the Rev. Mr. Powell to be the minister to them.

Two car loads of lumber arrived for Lyman's team last week.

Several more made a settles effort also arrived and everybody is smiling and anxiously waiting for the train to come in and expect the latter part of the month.

J. Christensen, who lives about three miles south of Olds, has had the pleasure of having the train stop in his little bunch of cattle and was able to make a most welcome addition to his stock. It will be very hard luck on this settler if the railway does not do its duty to him and the man and injury to his stock.

G. H. Smith who lives seven miles south of Olds, is having an auction sale of all his farming effects on Saturday at 1 P.M. He has received many offers and is very anxious to sell and go to town to reside in the future.

H. L. Walker, who has just returned from Duluth, says Olds is the spot for him after all.

Everybody thinks the shooting was excellent and that spring was here. The sudden change on Saturday dispelled this illusion.

It is a good time for traps and if the spring is late, a good many setters will keep busy finding feed for their stock.

W. M. Craig leaves for Winnipeg this week to represent the Workmen's Compensation Board in the conference to be held there.

J. W. Silverthorn, news reporter, is still continuing. A few days ago he gave the passengers a chance to put on the finishing coat and there will be no lack of interest in the establishment which is a credit to our front street.

E. H. Moore has bought the farm formerly owned by John Lawrence two miles west of Olds from R. D. McLean.

T. Walker returned from Lancome on Wednesday last, with his furniture, and is helping his brother in the store.

Mrs. H. F. Moore returned to Olds on today's train from the east.

TRYED TO BREAK JAIL

The Scheme, however, was frustrated.

A cheverly contrived a scheme for a fast delivery at the state prison in Stillwater, Minn., was frustrated by Warden Weller, and one of the convicts at the prison, when news became known that the warden chose not to give out until after the trial, was sent to the gallows in Washington county jail.

It is said a notorious woman has been sent to the gallows.

The prisoner who was to be tried in an attempt to escape from Minnesota, Edward J. Pierce, of New York, was sentenced to 10 years for robbery.
